RAFTING PETROHUE RIVER

When: Daily from August through June

Experience Required : None

Duration : ½ day

Intensity : Easy to medium

Hours : 8h30 & 14h30 from P Varas

Why the Petrohue River?

The Petrohue River offers not only some of the best panoramas in the area, but also provides an unforgettable adrenaline rush. Starting at the foot of Osorno Volcano, we cover 13 kilometers, about 1h45, of class III rapids.

Between the crystalline waters and the constantly changing views of Osorno Volcano, Puntagudo Volcano, and Calbuco Volcano, rafting the Petrohue is one of the best sightseeing adventures available within a half day of Puerto Varas.

What should I expect?

After pick-up at your hotel in Puerto Varas, our personal transportation will bring you to our base in Ensenada, about a 45-minute drive.

We start with a complete safety talk, and our multilingual guides will answer any questions that you may have about the day. When everyone is geared up in neoprene wetsuits, jackets, and boots, we have a short ten-minute drive to the river, and the adventure begins.

RAFTING PETROHUE RIVER

After a brief introductory section where you will practice paddling with your team, the waves of the first rapid called, "Wake Up," will do exactly that! Although the big volume, action-filled rapids of the Petrohue will keep you on your toes, we stop in several calm pools to take a breather, make sure your don't forget to enjoy the view, and even try a cliff jump if you're up for it!

As the journey comes to an end and we meet our transport to head back to the base, it's not uncommon to hear, "One more time, please!" and "I wish I could do that again!" We offer a snack at the base to refuel, and you also have the opportunity to see the pictures taken by our kayak photographer throughout the day. We send you back to Puerto Varas satisfied and looking forward to your next rafting adventure!

What should I bring?

We provide you with all of the gear and equipment necessary to have a safe, fun, and comfortable experience in the water. We recommend that you bring a bathing suit, towel, and dry clothes to change in to.

And don't forget your sunblock!
